

THE MEDSTAR™ SYSTEM

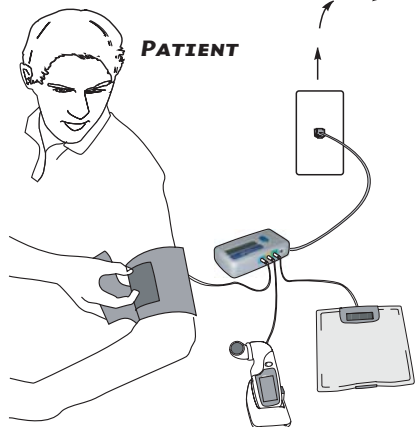

CYBERNET MEDICAL®

A Revolution In Home Monitoring For Chronic Disease Patients

HOW THE MEDSTAR SYSTEM WORKS:

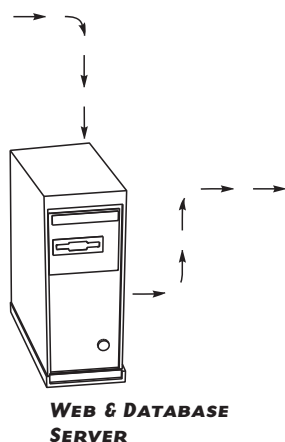

1 HOME

Patient takes measurements, and talks with health provider via video phone.

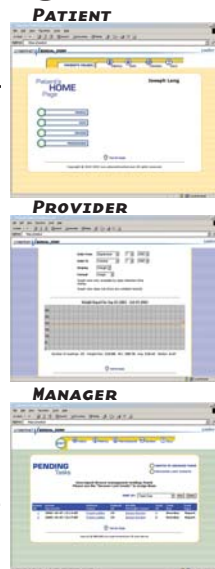

2

Data is transmitted via normal phone lines to a central data collection and storage server.

3 CARE PROVIDER'S OFFICE

Patients and health care staff can view data via secure, HIPAA compliant web sites.

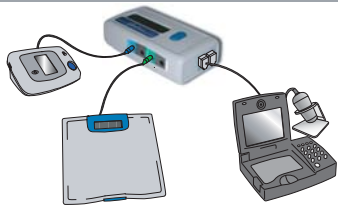

- Printable/customizable reports
- Automatic alerts
- Internet based

VIDEO PHONE

CHF MEDSTAR SET*

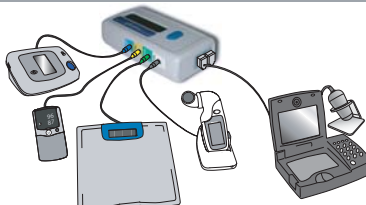

(Congestive Heart Failure)

- MedStar 200 Patient Unit
- Blood Pressure Monitor
- Scale
- SV500 Pro XL Videophone

CURRENTLY AVAILABLE COMPONENTS

EKG
Transtelephonic Cardiac Event Recorder
Output:
Up to 5 min EKG waveform

PULSE OXIMETER
Nonin PalmSAT
Outputs:
SpO2 (%)
Pulse Rate (per minute)

SPIROMETER
PDS HealthCare
Outputs:
Peak Flow (PEF in L/min)
Volume (FEV1 & FEV6 in L)

INR
INRatio Meter
Outputs:
Prothrombin Time (PT)
International Normalized Ratio (INR)

GLUCOSE METER
J&J Lifescan OneTouch Ultra
Output:
Blood Glucose (mg/dL)

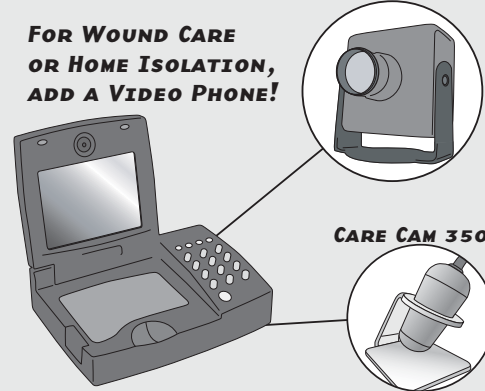

BLOOD PRESSURE
A&D Medical
Outputs:
Systolic and Diastolic (mmHg)
Pulse Rate (per minute)

SCALE
A&D Medical
Output:
Weight (lbs. & kg)

THERMOMETER
SureTemp Plus 690
Outputs:
Temperature (°F and °C)

MAG CAM 200

FOR WOUND CARE OR HOME ISOLATION, ADD A VIDEO PHONE!

CARE CAM 350

- Use with any MedStar or MedStar Package
- Resolution: 480 x 234
- Frames Per Second (FPS): 18-23
